

RAJESHWARI PASUNURI

JUNIOR DATA ANALYST | SQL | POWER BI | PYTHON | EXCEL | TABLEAU

9328877314 | pasunurirajeshwari230@gmail.com | linkedin.com/in/rajeshwari-pasunuri | github.com/Rajeshwari-383

PROFESSIONAL SUMMARY

Detail-oriented aspiring Data Analyst with hands-on experience in SQL, Power BI, Tableau, Python, and Excel. Skilled in data cleaning, exploratory data analysis, data visualization, dashboard development, and extracting actionable insights. Built analytical projects covering climate risk, customer behavior, electric vehicles, and sales, with a strong foundation in statistics and problem-solving.

TECHNICAL SKILLS

Programming & Querying: Python, SQL, PostgreSQL

Data Analysis: Pandas, NumPy, EDA, Data Cleaning, Data Transformation, Descriptive Statistics

BI & Visualization: Power BI, Tableau, Microsoft Excel

Power BI: DAX, Power Query, Data Modeling, Interactive Dashboards, Slicers, KPIs

Visualization: Matplotlib, Seaborn

Core Analytical Skills: Statistical Analysis, Trend Analysis, Data Interpretation, Business Insights

INTERNSHIP

Data Analyst Intern | DataMites | May 25, 2026 – Aug 27, 2026

- Building practical data analytics projects and interactive dashboards using Python, SQL, Excel, Power BI, and Tableau.
- Developing hands-on skills in data cleaning, preprocessing, EDA, data visualization, statistical analysis, and business insights.
- Undergoing comprehensive Data Analytics training from foundational to advanced concepts, including Python, NumPy, Pandas, SQL, Excel, Statistics, Power BI, Tableau, and Machine Learning.

PROJECTS

Climate Risk & Business Impact Analyzer | Power BI

- Analyzed 1,000 business records to evaluate climate risk, financial impact, downtime, and recovery performance.
- Built an interactive 3-page Power BI dashboard covering climate events, risk levels, industries, countries, and financial impact.
- Created KPI measures for total businesses, revenue loss, property damage, financial impact, average risk score, and downtime.
- Used Power Query, DAX, slicers, maps, and interactive visualizations to identify high-risk businesses and climate events.

Customer Behavior Dashboard | Power BI

- Analyzed approximately 3.9K customer records to understand purchasing behavior, sales patterns, demographics, and subscription status.
- Built an interactive dashboard with KPIs including average purchase amount and average review rating.
- Analyzed revenue and sales across product categories, age groups, subscription status, gender, and shipping types.
- Used interactive slicers and visualizations to identify customer segments and purchasing patterns.

Electric Vehicle Data Analysis | Tableau

- Analyzed 150K+ electric vehicle records to understand EV adoption, vehicle types, manufacturers, models, and geographic distribution.
- Built an interactive Tableau dashboard tracking total vehicles, BEV/PHEV distribution, and average electric range.
- Analyzed EV trends by model year, state, manufacturer, model, EV type, and CAFV eligibility.

Pizza Sales Analysis | PostgreSQL / SQL

- Analyzed 21,350 orders to evaluate sales performance, product demand, and revenue trends.
- Calculated total revenue of approximately 817.9K using SQL joins and aggregate functions.

- Used JOIN, GROUP BY, ORDER BY, LIMIT, subqueries, and window functions to perform business analysis.
- Used RANK() and PARTITION BY to identify the top 3 pizza types by revenue within each category.

CERTIFICATIONS

- Certified Data Analyst (CDA) — NOC
- 30 Days SQL Micro Course — SkillCourse | Jul 2026
- 30 Days Power BI Micro Course — SkillCourse | Jun 2026
- Microsoft Excel Beginners to Advance — SkillCourse | Jul 2026
- AI Tools and ChatGPT Workshop — Be10x | Jun 2026

EDUCATION

B.Tech – Electronics & Communication Engineering (ECE)

Sana Engineering College, Kodad | JNTUH | 2026
