PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in **SQL, Python, Excel, Power BI, Tableau, and Statistics** through data analytics internship and project work. Experienced in data cleaning, exploratory data analysis, dashboard development, KPI analysis, and business reporting. Built analytical projects using customer service, climate risk, market, movie, and electric vehicle datasets. Skilled in transforming data into visualizations and actionable business insights.

TECHNICAL SKILLS

Programming & Data Analysis: Python, Pandas, NumPy, SQL, Statistics, Data Cleaning, EDA

BI & Visualization: Power BI, DAX, Tableau, Excel, Power Query

Databases: MySQL, PostgreSQL

Tools: Git, GitHub, VS Code

Analytics: KPI Analysis, Business Analysis, Data Visualization, Reporting

EXPERIENCE

Data Analytics Intern | DataMites

May 2026 – Aug 2026

- Performed data cleaning, preprocessing, and exploratory data analysis to identify trends, patterns, and data-quality issues.
- Used SQL, Python, Excel, Power BI, and Tableau for data analysis, visualization, and dashboard development.
- Generated business insights from analyzed datasets and presented findings through reports and interactive dashboards.

PROJECTS

Customer Satisfaction (CSAT) Analysis | Power BI | Sep 2026 | GitHub

- Analyzed **32K+ customer service records** to understand customer satisfaction, call trends, channels, and service patterns.
- Built an interactive Power BI dashboard with KPI cards, slicers, trend analysis, and customer/channel-level insights.

Climate Risk & Business Impact Analyzer | Power BI | Aug 2026 | GitHub

- Analyzed **1,000 business records** covering climate events, risk scores, financial losses, downtime, and recovery metrics.
- Developed an interactive Power BI dashboard to monitor business risk, financial impact, downtime, and mitigation investment.

Market Analysis | SQL | Oct 2026 | GitHub

- Analyzed customer, product, department, and sales data using SQL to identify purchasing patterns and market trends.
- Applied JOINS, CTEs, subqueries, aggregations, and window functions to generate business insights.

IMDb Movies Analysis | SQL | Sep 2026 | GitHub

- Analyzed movie data using SQL to explore ratings, genres, movie performance, and production-related trends.
- Applied filtering, aggregation, joins, subqueries, and ranking techniques to answer analytical questions.

Electric Vehicle Analysis | Tableau | Jul 2026 | GitHub

- Analyzed electric vehicle data using Tableau to identify EV trends, vehicle distribution, and market patterns.
- Developed interactive visualizations and filters to explore electric vehicle data and generate data-driven insights.

EDUCATION

B.Tech – Electronics & Communication Engineering (ECE)

2022 – 2026

Sana Engineering College, JNTUH University

CERTIFICATIONS

- Certified Data Analyst (CDA)** – DataMites | Aug 2026
- 30 Days SQL Micro Course** – SkillCourse | Jul 2026
- Microsoft Excel Beginners to Advanced** – SkillCourse | Jul 2026
- 30 Days Power BI Micro Course** – SkillCourse | Jun 2026
- AI Tools and ChatGPT Workshop** – Be10x | Jun 2026
